Remove the wall frame covers:
Undo the screws front (1) and side (2) and slide out to the top (3).
Mounting a BalanceBox®650 to a brick wall

Remove the wall bracket (4):
Undo the screws left and right
and remove the bracket.

Calculate the mounting height
of the BalanceBox®650 wall bracket at the bottom.
Mounting a BalanceBox®650 to a brick wall

Measure the mounting height from the floor. And mark it.

Using a level, mark the horizontal position of the other holes level to the first hole. (distance 750 mm)
Mounting a BalanceBox® 650 to a brick wall

Mark the position of the first hole

Mounting a BalanceBox® 650 to a brick wall

Mark the position the second hole at 50 mm (2")
Mark the position of the third hole at 600 mm (23.6")

Mark the position of the fourth hole at 50 mm (2")
Mounting a BalanceBox®650 to a brick wall

Mark the position of the fourth hole at 50 mm (2")

Drill the holes in the brick wall, use a 14 mm drill for plastic plugs and 10 mm diameter screws, or appropriate drill for other type wall anchors.
Mounting a BalanceBox®650 to a brick wall

Drill the holes in the brick wall, use a 14 mm drill for plastic plugs and 10 mm diameter screws, or appropriate drill for other type wall anchors.

Insert the plug or wall anchor. Mounting hardware used depends on the type of wall.

Hardware is not included.
Mounting a BalanceBox®650 to a brick wall

Mount the wall bracket to the wall. Use 10mm wall anchors or screws.
